Subject: Methylene Chloride and TSCA

Hi Niva,

Unfortunately, I missed your presentation at the AHMP Conference.

I hope you would be open to answering a few questions below:

1. Will the use of MCI as a metal cleaning solvent (under a ventilated hood and/or while using respiratory & skin PPE) be impacted by EPA TSCA assessment?
2. Could it be impacted in the future and what additional regulatory process steps need to be taken?
3. If this MCI use could be impacted, what might be the timings for industry to make process changes?

Thank you,

Mike
